

St John's Cathedral, Brisbane
Anglican Church Southern Queensland

Position Description Lay Clerk

Background

In 1885 Bishop Webber, the third Bishop of Brisbane, commissioned the renowned architect John Loughborough Pearson to make sketches for a new cathedral. St John's Cathedral was constructed in three stages: the first completed in 1910, the second in 1969, and the third in 2009. The Cathedral Choir, which was first formed to sing in St John's Pro-Cathedral on the site of Queen's Gardens, has sung in the present Cathedral since 1909. Since this time, it has maintained a highly-regarded choral tradition.

The boy choristers are educated on partial scholarship at the Anglican Church Grammar School ('Churchie'), and rehearse at the school on weekday mornings. The lower parts are sung by Lay Clerks (adult singers), as well as Choral Scholars.

While the Cathedral Choir is its musical flagship, the Cathedral is also home to other resident choirs, including the Cathedral Singers, a voluntary mixed-voice choir which sings Evensong every second Sunday. There is also a Girls' Choir which sings both on its own, and together with the Lay Clerks.

The Position

The primary purpose of the position is to maintain the distinguished musical and liturgical traditions of St John's Cathedral, by singing alto, tenor or bass in the Cathedral Choir to a high standard. There are usually six permanent Lay Clerk positions, translating to one person a part on either side of the choir. Given the nature of this role, this post is suited to a more experienced choral singer who is used to working both in a solo capacity, and as the sole contributor to a voice part.
